## WORK EXPERIENCE

---

### PRIORITY GROUPS

Web Developer

Newark, NJ

Sep 2025 – Present

- Engineered internal healthcare web applications serving nurses and administrators, reducing manual operational errors
- Automated client onboarding and scheduling workflows using Google Apps Script, Albedo, and Google sheets integration.
- Created secure user portals for administrators, nurses, and caregivers, improving efficiency and reducing manual errors.
- Collaborated with management to implement digital forms, reporting dashboards, and role-based access control.
- Optimized site performance, ensuring responsiveness across desktop and mobile platforms.

### STANDARD ENVIRONMENTAL SERVICES INC

Compliance Operations Assistant

Brooklyn, NY

Jun 2023 – May 2024

- Analyzed discrepancies, conducted field audits, identified fraud incidents, and reported findings
- Tracked individual and team performance to enhance operational efficiency
- Completed investigations on referred files promptly, ensuring thoroughness and cost-effectiveness
- Reviewed fraud-related alerts to determine appropriate actions, including escalation or closure.

## PROJECTS

---

### HGCCNJ Platform | <https://hccnj.org/>

July 2024

- **Built a robust backend** to support user authentication, data storage, and real-time updates, ensuring a scalable and efficient system.
- **Designed and implemented features** tailored for churches, including event management, sermon streaming, donation processing, and community engagement tools.
- **Integrated Stripe Connect** to facilitate secure and seamless online payments and donations.
- **Leveraged Firebase for deployment and backend services**, ensuring real-time database synchronization and authentication.
- **Developed a cross-platform application** using React Native for mobile and React for web, enabling seamless access across devices.

### Priority Groups Web App |

Dec 2025

- **Designed and developed** role-based user portals serving healthcare administrators, nurses, and caregivers.
- **Integrated** automated scheduling workflows and reporting dashboards to streamline daily operations.
- **Ensured** HIPAA-compliant data handling and secure authentication across all user roles.
